Board Meeting Minutes--September 16, 1985

Present: Suzanne, Andy, Lisa, Stefan, Steven, Ruth, Daphne, Steve, Suzi, Bruce, Dan, Alison and Me.

Called to order: 5:20

The first order of business was to elect a Music Director. Two impressive candidates-Rick Holtzman and Dan Warthin-spoke to the board and answered questions for several minutes. When the smoke cleared Dan Warthin was elected. Thanks Rick and Congratulations to Dan.

Andy appointed Stefan Sullivan as Classical Manager.
Steven appointed Ruth Elwood, and Susan van Dyke as News Managers.
Steve appointed Rob Gilpin as Engineering Manager.
Suzi appointed Bruce Fagerstrom as Special Productions Manager.
Alison appointed Me as Business Manager.

Suzanne asked that all board members sign up for equipment training sessions sometime this week and set Monday, Sept. 23 as the deadline For Directors to submit for publication job descriptions of their positions and of their managers.

Suzanne asked each Director to create some helpful exercises in their departments for DJ's so that all new DJ's will be familiar with each department. She also called (in vain) for a volunteer to supervise the training.

Not to be discouraged, Suzanne also called for volunteers to staff the WRMC table at the Activities Fair on Sept. 18. Ruth Elwood agreed to do it, so Thank You Ruth.

The question of whether or not the station as a group should take political stands was discussed in light of the "Why Middlebury Should Divest" issue. It was agreed that WRMC would not take a stand on this issue. Suzanne suggested a vote be taken to form policy and the board unanimously approved a policy that WRMC would take no stand on any issue.

Someone suggested that WRMC publish a newsletter on a regular basis in order to keep in touch with those students who have shown their interest in the station but who do not currently have shows or positions. Everyone agreed that it was a good idea.

Thank You to Lisa for arranging the Public Service Announcements.

Steven will be writing "This Week at WRMC"--Wednesday the 25th is the deadline for telling him about something special that's going to be on your show.

TO: The WRMC Board of Directors

Subject: A Proposal to change the job description of the Director of Special Productions

Due to the shift in special productions programming away from the pre-recorded materials such as the Chicago Symphony Orchestra and Jazz Alive!, toward an emphasis on live shows featuring special themes or types of music, the responsibilities and duties of the Special Productions department have diminished some what. Some members of the Board have suggested that the department of Special Productions be changed to managerial status. Instead, I propose that the department retain its current status and that the job description for the position of Special Productions Director be changed. The director would still be responsible for programming the allotted special productions time (at this time 5:15-7:00 PM, Mon.-Thurs.) and for the quality of those programs.

In addition though, the department would subsume the activities of the Features Manager and the Production Manager. This new system would incorporate two sets of responsibilities into the department:

1) the responsibilities of the Production manager -- the production of ID's, PSA's, and assistance with promos; and

2) the Features Manager's organization of the production of weekly features.

Thus the term "Special Productions" would then have a new emphasis on audio production, which had not been fully integrated into any one department, while maintaining the special programs which offer diversity in the schedule. With the addition of the stereo cart machines, I expect that local production in our own small production studio will become a much more valued part of the station.

WRMC Board Minutes
September 19, 1988

Meeting opened: 5:18

Members present: Chris Cahill, Troy Haynie, Steve Long, Randy Kapelke, Jen Stone, Matt Pakos, Larry Maxwell, Melanie Friedlander, Mark Lieberfreund, Chris Hallenbeck, Susanne Johnson, Greg Beloff, Nigel Henry, Rachel Meyer, Dave Liebmann, Sean Ferguson, and Daryl Miller.

General Business: Welcome to Advisor Bob Peskin, Director of Student Activities Cathy Walsh, and ex-Station Manger Tom Donovan. All Board Members required to be at Gifford Classroom for organizational meeting at 7 p.m. Speeches to be given by Station, News, and Music managers. **The board voted unanimously to approve the proposal to aid Student Activities in the form of a loan provided that reimbursement would occur.**

Programming: A schedule for New DJ's has been made for the Production Room. Training sessions will be Wednesday at 4 and Thursday at 8. First demonstration tapes due Sept. 26th. The station will be operational 24 hours a day beginning Oct. 3rd at 7 a.m.

Engineering: The possibility of moving the transmitter to the WCVM Tower on Chipman Hill is still under consideration. This process would involve not only the technical move, but would also need approval from Administration and the FCC. The lowest cost available would be 1,000 to 2,000 and would use telephone lines. The higher cost would be 7,000 to 10,000 and would use microwave for transmitting. The cost of a microwave transmitter is approximately $5,000. A new engineering closet may be approved upon the completion of the new Student Center.

Business: Chris Cahill was in attendance at a meeting with Cathy Walsh and Bob Peskin concerning the reserve fund and ways to finance other campus organizations in the form of a loan due to a bookkeeping error at Student Activities. WRMC reserves totals $74,000 minus the cost of new equipment of $14,000 would leave $60,000. If $30,000 goes to cover the Student Government deficit, and $12,000 goes towards The Campus' purchase of new typesetting equipment, $18,000 would remain in reserve. The total amount of $42,000 would be in the form of a no-interest loan. Bob Peskin stressed that WRMC's reserve funds are constantly growing, so that no strain would be placed on WRMC's budget. The loan would bring about no change in the budget for any of the departments.
